Environmental Conservation at Home:

The at home challenges:

1. Make a poster explaining the separation of recyclable and non-recyclable rubbish
 - Take a series of photos and create a real-life comic story on recycling
 - Make a video explaining recycling
 - Write a check list of how recycle
 - Take pictures and email them to your leader
2. Find out how to reduce the energy and water you use in your home
 - Write about all the ways that we should try to reduce electricity use in the home
 - Write about things we could do to save water use in the home
3. Create a resource that you can share with your pack about one type of renewable energy
 - Make a poster on a type of renewable energy
 - Make a PowerPoint on a type of renewable energy
 - Make a game about a type of renewable energy
4. Design an environmentally friendly piece of land, bird feeder, bird table or nesting box
 - Design on paper or digitally
 - Explain the features you have added
 - Send a copy to your leader
